

IS CIRCLES RIGHT FOR YOU?

In Circles, you can hear presentations from which the entire Circles community, as well as the local community, can learn and grow from during Weekly Meetings. You will also be able to address systemic obstacles that keep families trapped in poverty. In short, Circles is a model for family stabilization that also supports community transformation.

Allies and Leaders agree to become friends, learn from each other, set personal SMART goals, build resources and impact the community by working to end poverty one family at a time.

Each Circle consists of an individual that is working to get out of poverty (Circle Leader) who is matched with two or three middle or upper middle income individuals (Allies).

Do you want to be a part of a safe community that will continually encourage you?

Do you have a desire to learn new resources and grow for your family and the community?

Do you work hard only to find that you are still struggling to maintain your bills and save?

Do you have goals and/or dreams you would like to have support to accomplish?
