

MAKE IT A HOME KIT – SUGGESTIONS

Family Promise is part of a Rapid Rehousing Program that focuses on getting homeless people housed as quickly as possible and the supporting them with a network of care and counseling once they are in stable, safe, housing. Family Promise has a goal of finding housing for 100 homeless families in 2016 through their rapid rehousing grant. They also have a partnership with Mustard seed which will allow the families to select used furniture for the homes they are moving into. St. Luke's and other congregations can help by supplying other household items to offset the costs of basic living needs such as kitchen and cleaning products and linens. If you or your group would like to purchase any of the following items, St. Luke's can donate them to Family Promise where they can help new families moving into a stable home. Please contact Kellie Brinker at kbrinker@st.lukes.org if you or your group would like to be a part of this effort.
